

RFID IC 14443a

RFID IC 14443a is a contactless smart card IC that is widely used in various applications such as access control, public transport, and identification.

RFID IC 14443a is available in two main types: **IC** and **PVC**. The **IC** type is a small, square integrated circuit, while the **PVC** type is a larger, rectangular card with a standard PVC substrate.

RFID IC 14443a has a standard frequency of 13.56 MHz and is compatible with the ISO 14443-3 standard for contactless smart cards.
