RFID Applications

RFID technology was first used in 1999 for library book tracking. It is used in various applications such as access control, inventory management, and supply chain tracking.

RFID tags are used in various applications, including access control, inventory management, and supply chain tracking. The market for RFID tags is growing rapidly, with a projected value of 40,000,000 pcs by 2020, representing a 60% increase from 2015. Major players in the market include CK and Chanel.

Office

3,000 m² office, 180+ sales trustable team supporting you!

Factory

7,000 m² clean work shop, more than 500 staffs, strict QC system, full set of advanced machines for all kinds of crafts production, ensuring each order will be taken cared fast and well.
