

RFID subway tokens are a unique packaging product designed for the one-way ticket of the track system. Its hard plastic shell provides greater stability and can be recycled multiple times.

RFID Metro Ticket subway token is ultrasonic embedding with ABS/PPS house, water-proof and harsh resistant. Operating temperature of -40C ~ +70C. The Tokens can be installed on the pallet, the cartons, the machine etc with a nail to fix on. There are Ø30/40/50mm dimension options with different thickness and different hole shapes. You may also select the colors you prefer to: Black/ White/ Yellow.

Product Specification:

Chip:	Mifare S50/F08, Mifare Ultralight
Size:	Φ25/30mm (±0.2mm)
Thickness:	2/3mm (±0.2mm)
Material:	ABS

Protocol:	ISO / IEC 14443 A
Frequency:	13.56 Mhz
Data transmission:	106 Kb / s
Reading/writing time:	< 200 ms
Read and write times:	100,000 times
Data storage time:	10/50 years
Operating temperature:	-40°C + 70°C
Operating distance:	6cm(depends on the antenna)
Color:	customized
Printing:	silk-screen
Packaging:	500 piece/box
Application Case:	Guangzhou Metro, Iran's bus.

Our Company And Factory

Company Introduction

Office

3,000 m² office, 250+ professional sales service you!

Shenzhen Great Creativity Smart Card Co., Ltd.

Factory

12,000m² clean work shop, more than 500 staffs, strict QC system, full set of advanced machines for all kinds of crafts production, ensuring each order will be taken cared fast and well.
