Factory

12,000m² clean work shop, more than 500 staffs, strict QC system, full set of advanced machines for all kinds of crafts production, ensuring each order will be taken cared fast and well.

The [disposable RFID wristband](#) was designed for healthcare applications such as tracking patients in hospitals and clinics. This disposable RFID wristband can be used for access control for amusement parks, concerts and conferences, recreational venues and more. The disposable RFID wristband can provide automated data capture that boosts efficiency and accuracy while reducing costly and dangerous errors. The disposable RFID wristband can also prevent counterfeiting of admissions, at entertainment venues and can also be used for cashless payment applications. The HF version of this tag can be written over 100k times making it very cost effective.

These Disposable RFID Wristbands come in different sizes for adults and children and are perfect for short to medium range RFID applications such as patient management and event access control.
