

Anti Theft RFID Signal Blocking Pouch For Keys

[RFID signal blocking pouch](#) provides a complete signal blocker for your vehicle keyfob. This prevents thieves from picking up and relaying signals from your key to shield against break-ins and keyless ignition theft.

How does the RFID signal blocking pouch work?

Our RFID signal blocking pouch makes your cars safe by stopping signals being sent or received by your key fob or any other device containing data. Remove your key from the signal blocking pouch and signal reception is restored immediately, enabling normal usage.
