Anti Theft RFID EAS Security Hard Tag Features:

EAS hard tag is made of ABS material, which are integrated by RFID and EAS. RFID chip stores information, EAS tags can be used for anti-theft. EAS clothing tag is combined with the item through the nail. It is widely used in clothing, bags, shoes, accessories and other products. In the realization of EAS security at the same time, can also use rfid technology to achieve rapid inventory and data collection for the retail consumer consumption habits to provide basic data support.

Now, most of the top 100 supermarket chains in Europe and the United States are using the 58KHZ acoustic magnetic security system. To get into the European and American supermarkets, it is necessary to put the DR anti-theft strip(DR anti-theft tag) on the products. It's the designated tag of Walmart, Lowes, HomeDepot, Metro and other big supermarkets.

Standard configuration: hard tag + anti-theft needle, as shown in the picture, please consult if other samples are needed.
Please note: please determine the product is used by AM or RF testing system.
