

RFID Gas Cylinder Tags Description:

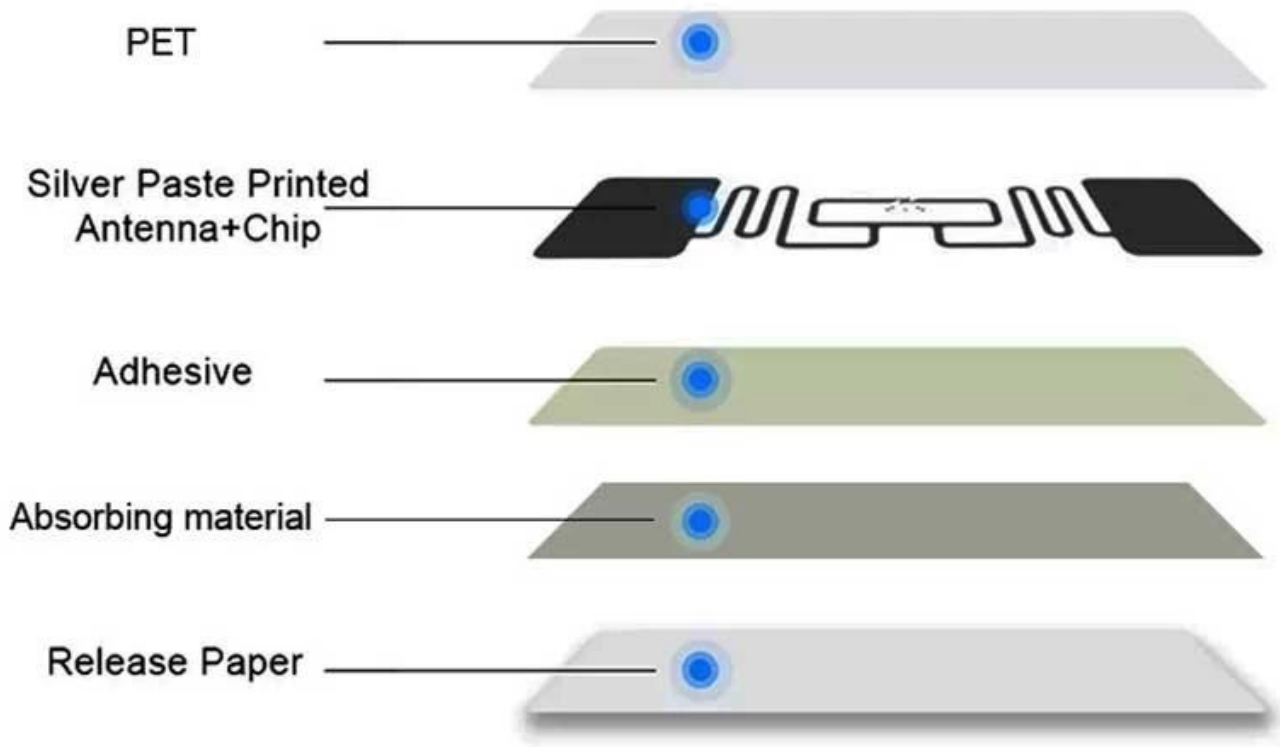

Soft uhf anti-metal rfid tag is developed based on the needs of some special asset management projects. It has a better application effect on the asset management of the rugged surface.

Soft uhf anti-metal rfid tag is highly praised by users in international market and it is cost-effective. This soft printable uhf anti-metal rfid tag is widely used in logistics management, product tracking, product anti-counterfeiting, warehousing management, production control, vehicle management, gun control and other applications.

RFID Gas Cylinder Tags Specifications:

Surface material:	PET
Backside material:	3M adhesive
Middle material:	soft absorbing material
Size:	100*30*1mm, 70*20*0.6mm, 70*30*0.6mm, 52*13*1.1mm, 92*15*1.1mm, 96.5*33.5*1.1mm or customize
Frequency:	860~960MHz
Protocol:	EPC Class1Gen2(ISO18000-6C)
Chip:	Impinj M4QT, Alien H3
Storage capacity:	EPC 96Bits; User Memory 512Bits
Data storage time:	50 years
Rewritable number of times:	100000 times
Read distance:	2-3m
Operating temperature:	-40~+250°C
Personalized customization:	chip EPC pre-write, printing, laser coding
Application:	Asset management

Soft/Flexible Printable UHF Anti-Metal RFID Tag Application:
