

# RFID/NFC

NFC is a type of RFID technology that operates at a shorter range than traditional RFID. It is commonly used for contactless payments, access control, and data exchange between mobile devices.

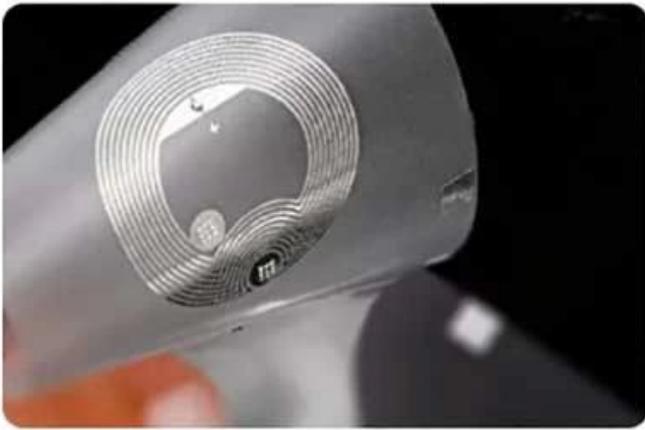

DTB is a company that specializes in manufacturing RFID and NFC tags. They offer a wide range of products and services, including custom tag design, production, and integration solutions.

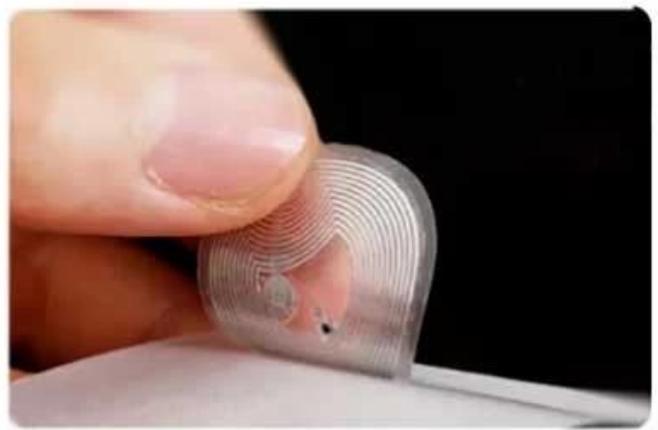

# RFID/NFC

Material	PET/PVC
Size	35*35mm 0.4-0.5mm / 0.8-1mm
Frequency	HF 13.56Mhz
Protocol	ISO14443A
Chip	NXP Ntag213 / Mifare S50 / NXP Ultralight / NXP Ultralight C / Broadcom Topaz512
Memory	64 / 192 / 144 / 512 / 1k EPPROM
Range	LF / HF 3-10cm
Temperature	
Quantity	6,000,000
MOQ	500
Standards	ISO9001-2008 / SGS / ROHS / EN71
Weight	100 / 10 / 20 / 2000 / 3000 / 5000 / 1-3kg/1000
Lead time	6-7 days
Shipping	DHL / FEDEX
Incoterms	EXW / FOB / CIF / CNF

**Dry label**  
Antenna + Chip

**Wet label**  
Antenna + Chip + Adhesive Layer

**White label**  
Coated paper + antenna+chip +adhesive layer

**White label printing**  
Coated paper + printing +  
antenna + chip + adhesive layer
