

13.56mhz Soft PVC NFC Wristband Access Control

Soft pvc nfc wristbands are an economical and convenience solution for any RFID or NFC based integration. We use soft pvc to be material and can make better touch and comfortable. Generally speaking, we used NXP Mifare classic 1k chip for soft pvc nfc wristband in the past and popular among people. With developing of NFC function nowadays, more and more nfc mobilephone launched. They can not work with Mifare 1k chip wristband or label. That's why we use NFC chip such as NXP ultralight, topaz 512 or Ntag 213, Ntag 216.
