

Application:

UHF RFID marathon bibs tag is applied to the athlete's number cloth, the reading distance is stable, and it is suitable for multi-person competition. No need to distribute RFID wristbands or other rfid wearable devices, which simplifies the operation process and saves management time.

Sports running project

Tips for guaranteeing timing:

Wear the bib number visibly on the chest;

Do not fold or crumple your bib number or tag;

Use a pin for each corner of the bib number, do not pierce the tag;

Do not remove the foam spacer, the foam increases the detection rate of your tag;

The tags do not have to be collected after the race, you can keep the bib with the tag as a souvenir.
