

Features of RFID Signal Blocking Bag:

Carbon fiber RFID signal blocker pouch with shielding material inside, which can protect your car key, smartphone, credit card, e-passport away from unauthorized handheld scanner. Different sizes are available like 12.5*8cm, 16*10cm or customized size.

Why Need a Car Key Blocker Pouch?

Every 43 seconds a car is stolen in Europe/US, which is close to a million vehicles per year. Thieves are using "signal amplification" to gain unauthorized access to your car, opening and operating your car without needing to break in, so a security pouch gives you the protection you need.
