Application of NFC Tag/NFC Sticker/NFC Label

Extensive Experience with NFC

Production process of NFC Tag/NFC Sticker/NFC Label:

Our certificates

Near Field Communication (NFC) is a set of standards for smartphones and similar devices to establish radio communication with each other by touching them together or bringing them into close proximity, usually no more than a few centimeters, Present and anticipated application include contactless transactions, data exchange, and simplified setup of more complex communications such as Wifi communication is also possible between an NFC device and an un-powered NFC chip, called a "tag".

Most of mobile phones have NFC application and make today's life will be more smart and easy. We can use NFC function to payment, identify, date exchange, information share. NFC sticker can affix on phone backside or anywhere if you want. Customer can rewrite urls, text, number into nfc sticker which embedded nfc chip inside. Generally they are 13.56mhz and iso 14443 protocol. We can chose them depend on their user memory.

The NFC epoxy tag is finely designed to attract the customers eyes, the nice appearance is aim to promote company image. It is widely used for loyalty system,access control system, time-attendance

system, promotion system.
