The RFID Silicone Wristband is designed for personal identification applications such as access control for amusement parks, concerts and conferences, recreational venues, museums, exhibitions and more. The wristband's style and materials make it particularly suitable for saunas, swimming pools, spas and other high humidity environments. Easy clean characteristics also make it suitable for food processing areas, etc. RFID wristbands can enable collection of data, control access to areas or services or drive interactive displays, promoting visitor engagement and providing valuable data to event organisers.

Shenzhen Chuangxinjia smart card co.,Ltd offers RFID wristbands in a variety of materials, such as silicone, woven (cloth), and plastic, paper etc. We can customize them to include your logo and we have a various range of color offerings. We have RFID wristbands for point of sale, keyless hotel rooms, access control & security, counterfeit prevention, customer loyalty programs, and waterproof environments.
