# NFC Access Control Reader Introduction:

R20C card reader is a contactless smart card read-only reader developed based on the ISO14443A international standard protocol. It is a universal card reader designed with 13.56Mhz contactless radio frequency technology. During use, it can be plugged and inserted at will (plug Ready to use), no external power supply is needed, and the user does not need to load any drivers, and the reading is stable, accurate and reliable.

NFC Access Control Reader Specifications:

Weight:	About 140 g
Size:	190mm×84mm×42mm (Body size)
Working frequency:	13.56Mhz
Reading distance:	0~80mm
Card reading time:	100mS
Card reading speed:	0.2S
Operating Voltage:	5V
Working current:	100mA
Communication interface:	USB
Card reader type:	14443A protocol label such as MFS50S70
Operating system:	Win XPWin CEWin 7Win10LIUNXVistaAndroid
Supply Ability:	5000000 Piece/Pieces per Month
