RFID Playing Cards NFC Poker

RFID/NFC Playing Cards Applications

The new RFID/NFC playing cards are made from paper and exactly same as the regular cards. But each playing card is embedded with a passive 13.56 MHz RFID tag containing an semiconductors RFID chip. The rfid playing cards nfc poker is flexible and does not change the feel of the normal playing cards. All players were thrilled about the way it worked. Because it can be with NFC chip inside. It also called NFC enabled playing cards.
