

Ever increasing cost pressure in the health care system demands simplification and optimization which do not sacrifice patient care. RFID based Electronic patient identification and documentation systems reduce administration efforts and improve patient safety in modern hospitals.

The RFID Wristband enables physicians and medical staff to quickly access critical patient information. With a swipe of the patient's wrist, this information can be read by mobile PDAs, Tablet PCs or touch pads during medication. Because it uses standard specifications, the RFID Wristband can be easily integrated into existing clinical information systems.

The RFID Wristband's patented disabling features – the wristband is destroyed when removed from the wrist – are important to ensuring patient privacy. This added security prevents unauthorized access to sensitive medical history, a critical aspect that challenges all patient identification and documentation systems.

Product Specifications:

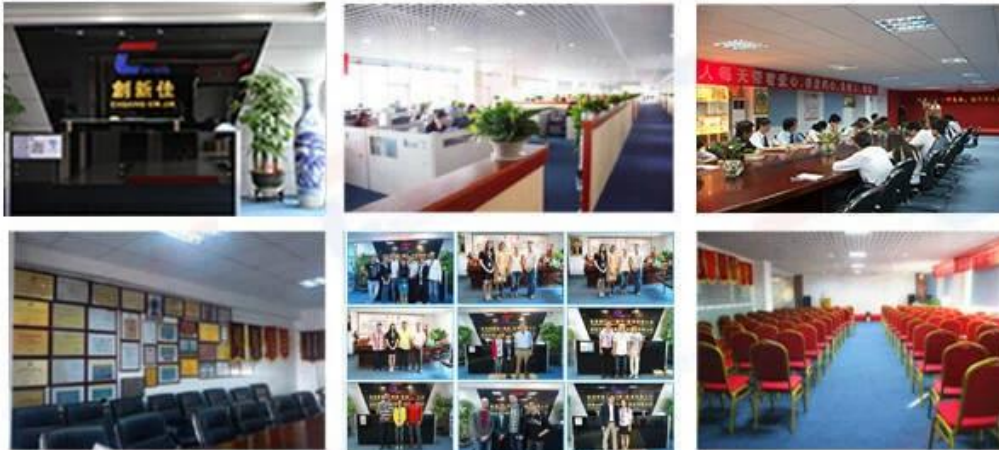

Product name	disposable medical pvc rfid wristband
Material	pvc
Size	210*35*14mm, 250*30*14mm,300*30*14mm, 245*51*26mm or as requested
Chip	LF(125KHz): TK4100, EM4200, ATA5577,etc. HF(13.56MHz): NXP Ntag213, Mifare S50, NXP Ultralight, NXP Ultralight C, Broadcom Topaz 512 etc. UHF(860MHz): Alien Higgs-3,Higgs-4,Impinj M3 M4 M5
Frequency	LH/125KHz; HF/13.56MHz; UHF/860MHz
Protocol	ISO 14443A/15693; ISO 18000-6C
Color	red, green, yellow, black, white, etc.
Craft:	printing, encoding, numbering
Package	100 pcs/OPP, 30 OPP/ CTN
Delivery time	7-12 working days after order confirmation

Company Introduction

Office

3,000 m² office, 250+ professional sales service you!

Shenzhen Great Creativity Smart Card Co.,Ltd.

Factory

12,000m² clean work shop, more than 500 staffs, strict QC system, full set of advanced machines for all kinds of crafts production, ensuring each order will be taken cared fast and well.
