## round NFC tag on metal with 3M adhesive

The anti-metal nfc tag is made of a special anti magnetic absorbing material encapsulated into an electronic tag, technically solves the problem of electronic label can not be attached to the metal surface. This product can be waterproof, acid proof, alkali proof, collision, and can be used in outdoor.

What real-world applications do those NFC tags in real life have? Whether it is personal life, or collective life, the NFC tag has enough friendly performance. Consider these life examples. To work on Monday, touching an NFC tag inside the car, the phone automatically enters the onboard map mode, fast and efficient navigation destination; to work every day is connect the phone WIFI the first time, touch the NFC tag without having to enter a password to connect to the WLAN network step; morning enter the meeting room, touch the NFC tag on the door to activate the meeting mode, think calm, solve problem; new colleagues, introduce themselves? You are out. Just through NFC preset VCard, brush lightly to share; every sleep, touch an NFC tag, the phone automatically goes into sleep mode, let you avoid any external interference. NFC has so many benefits to us.

NFC technology can make our lives more convenient, so in the future it will be more widely used.

## **Specifications:**

Item:	round NFC tag on metal with 3M adhesive
Material:	PVC/PET/Paper
Size:	25mm diameter, 35*35mm, 50*50mm, 27*42mm, 85*54mm and as requested
