

closed round silicone RFID wristband

Silicone wristband with rfid wholesale used time molding of 100% silicone, with non-toxic and tasteless, good elasticity, non-cracking, long lifetime, does not irritate the skin and so on. Soft silicone material, elegant design, simple, bright colors, fashionable and loved by the young friends, and gradually developed into a popular jewelry. Wearing a more avant-garde and popular color silicone wristbands, make you cool flavor! Worn on the hand, it is essential to the fashionable.

Silicone RFID wristbands are implanted RFID chip in the wristband. They are applied for access control, query, tracking and other fields. Since silicone wristbands have a good waterproof effect, and are a closed loop design, they are very convenient to carry, so in many baths, swimming pools, spas use the product as a key for customer storage closet, customers can wear silicone wristbands on wrist, enjoy playing in the water.

We provide silicone RFID wristband, plastic RFID wristband, PVC RFID wristband, paper RFID wristband, fabric RFID wristbands, nylon RFID wristband, etc. High quality with low price, large exports to Europe and America, Southeast Asia and other regions, deep recognized and supported by industry, and are widely used in various fields of security, health care, events, exhibitions, tourism and entertainment etc.
