Transparent Card Product Description:

Frosted finish is the best choice for transparent cards, this combination is an increasingly popular way to
help you stand out from the crowd and distinguish your company, or organisation, in even more crowded
marketplaces. The dramatic design will not only make your branding pop, but leave a lasting impression on your
customers. The common size is the credit card size 85.5*54*0.76mm, etc. The size can be customized as the
customers request. It is same as white PVC cards, barcode, magnetic stripe or IC chip can be added for working
with different system. Contact us to request a quote.
