

We can produce custom printed RFID silicone wristbands with an embedded RFID chip. Our silicone RFID wristbands can operate with any RFID system, from any system integrator. These wristbands are ideal for social media integration and cashless payments.

Shenzhen Chuangxinjia offers RFID wristbands in a variety of materials, such as silicone, woven (cloth), and plastic, paper etc. We can customize them to include your logo and we have a various range of color offerings. We have RFID wristbands for keyless hotel rooms, access control & security, counterfeit prevention, customer loyalty programs, and waterproof environments.
